History

The Governor's Council on Disability traces its roots to the World War II era. In 1947, President Harry S Truman issued an Executive Order establishing the President's Committee on Employment of the Handicapped. This Committee was created to assist WWII veterans living with disabilities with reentry into the civilian workforce. In 1949, Missouri established the state Governor's Committee to share information about work related problems facing people living with disabilities. In 1977, the Governor's Committee was established as a state agency and in 1994, the agency's name was changed and the statute was updated to broaden the agency's mission beyond employment, enabling the Governor's Council on Disability to become a voice for more than one million Missourians living with disabilities in all facets of life, including state government.

Mission

To provide leadership and support so people with disabilities achieve inclusion and independence.

Vision

The Missouri Governor's Council on Disability will be recognized statewide as the primary organization providing leadership to improve the lives of Missouri citizens with disabilities.

Goals

The Governor's Council on Disability's Strategic and Operational Plan was updated and approved for 2023 - 2027 on November 18, 2022. The Goals are:

- Goal II: Encourage system changes and public policies that eliminate barriers and support the wellbeing and independence of individuals with disabilities.

The purpose of the Legislative Education Project (LEP) is to educate people about the Missouri legislative process and motivate individuals by providing opportunities to become actively involved in public policy that impacts people with disabilities. The LEP is sponsored annually during the legislative session and includes online learning tools to bring the training to individuals and organizations in their communities. Each year the Governor's Council on Disability distributes a Legislative Priorities Poll to determine the issues that are important to Missourians with disabilities and those who work and live with them. The poll is sent out to agencies and individuals. This year, 452 individuals from 57 counties in Missouri participated in the poll. Based on the results, the legislative priorities the Governor's Council on Disability will be following during the 2023 legislative session are:

1. Plans for public emergencies and disasters ensuring needs of people with disabilities are met
2. All public buildings having evacuation plans for all people with disabilities
3. The State of Missouri should update websites to include more language that is direct and easy to understand for those with reading or writing difficulties
4. The Direct Support Professional workforce providing critical services
5. Ban on drivers' texting while driving

Outcomes of the Legislative Priorities Poll are shared with the General Assembly and elected officials. The complete report is available online at https://disability.mo.gov/gcd/legislative_priorities_poll.htm.
