History

The Governor's Council on Disability traces its roots to the World War II era. In 1947, President Harry S Truman issued an Executive Order establishing the President's Committee on Employment of the Handicapped. This Committee was created to assist WWII veterans living with disabilities with reentry into the civilian workforce. In 1949, Missouri established the state Governor's Committee to share information about work related problems facing people living with disabilities. In 1977, the Governor's Committee was established as a state agency and in 1994, the agency's name was changed, and the statute was updated to broaden the agency's mission beyond employment, enabling the Governor's Council on Disability to become a voice for more than one million Missourians living with disabilities in all facets of life, including state government.

Mission

Vision

The Missouri Governor's Council on Disability will be recognized statewide as the primary organization providing leadership to improve the lives of Missouri citizens with disabilities.

The annual Missouri Youth Leadership Forum (MO-YLF) is a 5-day leadership and career development program for transition age high school students with disabilities.

From July 18-22, 2023, 32 delegates representing 17 different counties in Missouri participated in the 19th annual MO-YLF at the University of Missouri in Columbia, where they learned about self-advocacy, mentorship, disability culture and history, the legislative process, independent living, post-secondary transition, assistive technology, and community service.

The program provides an opportunity for students to learn from mentors, program alumni and volunteers who share similar experiences and grow as leaders in their communities. The delegates get to experience college life while they attend the program and learn about career and college opportunities from an employer panel and post-secondary education professionals.
