Changes the laws regarding vaccinations

This act adds information related to all meningococcal vaccines receiving a category A or B recommendation from the Advisory Committee on Immunization Practices and a recommendation that students receive the vaccine to the list of what must be included in the informational brochure produced by the Department of Health and Senior Services. It includes fraternity and sorority housing in the "on-campus housing" definition. The act also requires all long-term care facilities to annually assist volunteers and employees who have direct contact with residents in obtaining the influenza vaccine. This requirement can be fulfilled by providing the vaccine or providing information regarding where it can be obtained. It encourages documentation of assistance acceptance or denial.

SB 1075 - Wallingford

Creates the Silver Alert System to aid in identifying and locating a missing endangered person

This act creates the Silver Alert System to aid in identifying and locating a missing endangered person, defined as a person who: (1) does not meet the criteria for an Amber alert; (2) is missing under unexplained, involuntary, or suspicious circumstances; and (3) is believed to be in danger because of age, guardianship, health, disability, environmental or weather conditions, or is in the company of a potentially dangerous person. A

missing endangered person does not include a runaway.

The Silver Alert System shall be set up and maintained in a manner similar to the Amber Alert System. The Department of Public Safety shall develop regions to provide the system and to coordinate local law enforcement agencies and public commercial television and radio broadcasters. Local law enforcement participation in the Silver Alert System is optional under this act.

SB 1087 - Romine

Creates the Office of Missing Persons Advocate

This act establishes, within the Office of Administration, the "Office of Missing Persons Advocate" to assist family members of missing persons and others in understanding law enforcement duties and resources, communicating with law enforcement officers and agencies, county coroners, medical examiners, and other agencies, and providing advice. The office is to be administered by a director and deputy director, who are to be appointed by the governor with the advice and consent of the senate for a term of six years. This act specifies the information that the office has access to, the powers granted to the office, and the requirements of the office.

Current law defines a missing person as a person who is missing and who meets certain characteristics. Under this act, a missing person is any person who is missing regardless of whether they meet one of the enumerated characteristics, and a "high risk missing person" is a missing person who meets one of the specified characteristics. The list of characteristics is expanded.

In addition, current law allows a person to file a complaint of a missing person with a law enforcement agency that has jurisdiction. A list of information that must be included with the

complaint is provided. This act removes the requirement that the agency have jurisdiction and expands the information to be included with the complaint. The act also prohibits a law enforcement agency from refusing to accept a missing persons report for certain reasons.

This act specifies certain information that law enforcement agencies must provide to the person making a missing persons report, family members, or other persons who can assist in locating the missing person.

Under this act, local law enforcement agencies must make use of all available tools, resources, and technologies available to resolve a missing persons case. In addition, this act provides a list of information and materials a law enforcement agency must attempt to obtain if a person remains missing for more than thirty days.

This act requires that all DNA samples obtained in missing persons cases be immediately forwarded to an appropriate crime laboratory for analysis.

Under this act, law enforcement agencies must immediately determine whether a person who is reported missing is a "high risk missing person". The Missouri State Highway Patrol Missing Persons Unit must be contacted if the person is a high risk missing person. This act specifies further additional duties of law enforcement agencies and the Missing Persons Unit when a person is determined to be a high risk missing person.

This act expands the information regarding unidentified deceased persons that county coroners and medical examiners must obtain. In addition, this act requires county coroners and medical examiners to promptly enter information in national and state databases that can aid in the identification of missing persons.

Under this act, any person with custody of human remains that are not identified within 24 hours of discovery must promptly notify the Missouri State Highway Patrol of the location of those remains. An

agency handling the remains of a missing person who is determined to be deceased must notify the law enforcement agency handling the missing person case. Documented efforts must be made to locate family members of the deceased person to inform them of the death and location of the remains of their family member.

Relating to reimbursement for emergency medical transportation services under the MO HealthNet program

Under this act, an eligible MO HealthNet provider may receive a supplemental reimbursement, in addition to the MO HealthNet reimbursement such provider would otherwise receive for ground emergency medical transportation services, provided that such reimbursement shall not exceed 100% of actual costs. The act specifies how such supplemental payment shall be calculated and how an eligible provider's claimed expenditures for the ground emergency medical transportation services shall be eligible for federal financial participation.

This act also requires the Department of Social Services to design and implement an intergovernmental transfer program relating to ground emergency medical transport services in order to increase capitation payments for the purpose of increasing reimbursement to eligible providers, managed care plans, and coordinated care organizations, as detailed in the act. Any eligible provider participating in this program shall agree to reimburse the Department for any costs associated with implementing the program.
