

No-Excuse Absentee Voting Option

With [House Bill 1878](#) becoming law on August 28, 2022 all Missouri voters now have another election voting option. Two weeks prior to each election, Missouri voters can vote absentee **in-person** at a location determined by each local election authority without having to provide a reason for voting absentee. You do not have to complete an application but must bring a photo ID with you. Accessible voting machines should be available for use.

This new option could be a benefit for individuals with disabilities, personal care attendants, direct support professionals, and others for whom getting to a polling place or standing in line on Election Day may be a challenge.

Contact your local election authority to determine where they will be conducting no-excuse absentee voting. You can look up your local election authority on the [Secretary of State's website](#) (<https://www.sos.mo.gov/elections/goVoteMissouri/localelectionauthority>).
