GOVERNOR'S COUNCIL ON DISABILITY

27th Annual Inclusion Award

Nomination Information:

The Governor's Council on Disability's annual Inclusion Award program recognizes and honors a Missouri resident, organization or business that illustrates excellence in leadership for the "best of the best inclusion practices." Individuals are also encouraged to nominate state and local government divisions or universal design/assistive technology that demonstrate excellence in inclusive practices. The winning award and honorable mention will be presented at the 2019 Power Up assistive technology conference.

To enter a nomination, please complete the attached nomination form. Please print or type the information, limiting your narrative to 250 words. Please do not send newspaper clippings, books published, etc. If additional information is needed, a judge will contact you directly. References will be contacted, so please provide us with telephone and e-mail information for them. Deadline for submitting nominations is January 31, 2019. You may submit nominations via e-mail, mail, fax or on the Governor's Council on Disability's website (<http://disability.mo.gov/gcd>, click on Inclusion Awards). Nominees who have previously won the award are not eligible to win again. Previous years' winners are listed on the website.

Helpful Hints:

Be specific and concise. Judges will be looking for exemplary illustrations of how inclusion has worked in your school, place of employment and/or community. Simply holding disability awareness fairs or exposing people to community activities does not exemplify inclusion efforts, unless it is part of a broader strategy showing results.

What is Inclusion?

- A philosophy, not a policy
- A place where EVERYONE belongs
- A place where EVERYONE is accepted
- A place where EVERYONE supports and is supported by their peers and other members of the community
- When EVERYONE, with or without disabilities, is included on an equal basis

Principles of Inclusion:

- Educating all persons with disabilities in their local schools with students who do not have disabilities
- Providing appropriate services and supports within the community, regardless of their complexity
- Receiving job training in regular community settings instead of simulated settings
- Encouraging interactions between persons with disabilities and persons without disabilities
- Understanding and acceptance of individual differences

- Participating in community life
- Being proactive in marketing to people with disabilities in the workforce and customer base
