[SB 1703](#)     [Carter](#)

Establishes the "Student Screen-Time Standards Act" and the "Framework on Classroom Use of Screens (FOCUS) Council" regarding instructional methods in elementary schools

This act establishes the "Student Screen-Time Standards Act" and requires each school district and charter school to adopt a written policy governing screen time and the use of instructional technology for students in kindergarten through grade five. The policy shall be designed to promote students' educational interests, prevent harmful effects of excessive screen time on child development, ensure that technology supports rather than supplants foundational learning, and restore evidence-based practices. The act outlines required components of the policy, including limits on student screen time, restrictions on the use of school-issued devices, and limits on student access to internet-connected instructional technology, including laptops, tablets, software platforms, and other similar devices. The policy shall identify approved digital platforms, establish standards for student use of hands-on physical learning tools and traditional materials, outline procedures by which parents may obtain information regarding their child's screen time and technology use and limit such use, and describe the research and evidence upon which the policy is based. In developing the policy, each school district or charter school shall consider and document research on best practices in literacy instruction, instructional technology, assessment, and the role of handwriting and cursive writing in promoting literacy. Each elementary school shall notify parents and guardians annually of the adopted policy, provide parents available information regarding their child's login time and technology use upon request, and publish the policy on the school's website. Each policy shall be periodically updated and shall incorporate recommendations from a model school board policy to be developed by the "Framework on Classroom Use of Screens (FOCUS) Council" established in the act. The policy shall be implemented before the end of the 2027–28 school year and shall apply in all subsequent school years. The Literacy Advisory Council established under current law shall provide advice regarding instruction and assessment of cursive writing and reading, and shall develop recommendations for a related model policy on cursive. The Commissioner of Education shall establish a "Framework on Classroom Use of Screens (FOCUS) Council" composed of the Commissioner as chair, with appointed members representing

school boards and charter schools; elementary school principals who have completed state leadership training; teachers with expertise in reading, mathematics, and special education; parental and disability advocacy organizations; faculty from approved teacher preparation programs; a licensed pediatric mental health professional or board-certified behavior analyst; and a medical professional with expertise in child health and development. The Department of Elementary and Secondary Education shall provide staff and resources for the council. The council shall conduct a comprehensive survey and analysis of screen time and instructional technology use in public schools, and shall provide guidance on best practices and policies, as provided in the act. By July 1, 2027, the council shall submit a report containing the council's recommendations and a model school board policy on screen time and instructional technology use to the State Board of Education, the Governor, and the Joint Committee on Education. The report shall be updated at least every two years.

**SB 1719**     **Schroer**

Establishes provisions relating to health care workplace violence and advanced practice registered nurses

Only the part related to people with disabilities is summarized.

This act modifies provisions relating to the practice of advanced practice registered nursing. Specifically, prescription medications prescribed by advanced practice registered nurses ("APRNs") may include Schedule II stimulants for behavioral health patients. Under current law, collaborative practice arrangements between physicians and registered professional nurses may delegate to an APRN the authority to administer, dispense, or prescribe certain controlled substances. This act provides that the section of law providing for such agreements shall not apply to APRNs, excluding certified registered nurse anesthetists ("CRNAs"), who have been in a collaborative practice arrangement for a cumulative 2000 documented hours with a collaborating physician and whose license is in good standing. APRNs applying for licensure by endorsement may demonstrate to the Missouri State Board of Nursing completion of such hours. Additionally, any such APRN shall not be required to enter into or remain in such arrangement to practice in this state. This act also provides that an APRN's prescriptive authority shall include authority to prescribe, dispense, and administer controlled substances as provided in current law. Furthermore, the provision on prescriptive authority shall also apply to good-standing APRNs who have been in collaborative practice arrangements for a cumulative 2000 documented hours with collaborating physicians and who are no longer required to hold collaborative practice arrangements.

Modifies provisions relating to alternative therapies and treatments, including psilocybin

Under this act, any person who acquires, uses, produces, possesses, transfers, or administers psilocybin for the person's own therapeutic use shall not be subject to state or local criminal or civil penalties if the person is a veteran or first responder and is 21 years of age or older and suffers from a condition listed in the act. The person shall be enrolled in a study regarding the use of psilocybin to treat such conditions and shall provide the Department of Mental Health with specified information. A facilitator shall be present during the administration of the psilocybin and the use of psilocybin shall be limited to no more than 150 milligrams of psilocybin analyte during any 12-month period. A person who assists another in any of the acts permitted under this act and any laboratory testing psilocybin under this act shall not be subject to state or local criminal or civil penalties. Subject to appropriation, the Department shall provide grants totaling \$2 million dollars for research on the use and efficacy of psilocybin for the treatment of conditions listed in the act. The Department shall prepare annual reports for the Governor, Lieutenant Governor, and the General Assembly on the implementation and outcomes of psilocybin use under this act. No state agency shall disclose to the federal government or any unauthorized third party the statewide list or any individual information of persons who meet the requirements of this act. Additionally, this act modifies current law on the use of investigational drugs and devices for individuals with terminal illnesses to include individuals with life-threatening or severely debilitating conditions or illnesses. Currently, investigational drugs shall not include Schedule I controlled substances. This act repeals that prohibition. Finally, this act requires the Department of Mental Health, in collaboration with a Missouri university hospital or contract research organizations conducting FDA-approved trials, to conduct a study on the efficacy of using alternative medicine and therapies, including, but not limited to, the use of psilocybin, for the treatment of veterans and first responders suffering post-traumatic stress disorder, major depressive disorder, substance use disorders, or who require end-of-life care, as described in the act. Such study shall include a study of the use of psilocybin to treat such conditions, as well as a literature review and the submission of various reports. No person participating in the study shall be subject to criminal or civil liability or sanction for participating, except in cases of gross negligence or willful misconduct.

[HB 3492](#)     [Bosley](#)

Establishes a process in which persons registering a motor vehicle may apply for a designation and license plate decals indicating a health condition or disability that limits or impairs the ability to effectively communicate with law enforcement

This bill allows individuals who have a health condition or disability that impacts the ability to communicate effectively with law enforcement to apply for a designation when registering a vehicle. The designation would be associated with the license plate number and placed in the uniform law enforcement system. License plate decals will also be available for the individual, a child, a parent, or a spouse has such health condition, mental health condition, or disability. To receive the designation a physician or psychologist must certify that the condition or disability and resulting impairment exists. The Department of Revenue and the Department of Public Safety will produce materials.
